Tidepool Basket Set

Pattern Intro:

Basket is worked round in single crochet tapestry with two colors for pattern. An inner liner provides extra support on bottom and sides and is hidden by an inner crocheted layer in a third color.

Pattern Notes:

Each block on chart represents one single crochet stitch and each row on chart represents one round. Read chart from right to left for each round.

Always change colors in last stitch made in working color.

When changing colors, drop first color to wrong side of work, pick up next color and carry non-working color along tops of stitches of previous round, working stitches over the top of the carried yarn. Maintain an even tension of carried yarn, do not pull tight as the work will distort.

Work in continuous rounds; do not join or turn rounds unless otherwise stated.

Place marker at the beginning of rounds and move up as work progresses.

The location of the increases is alternated in the bottom from Round 8 to produce a more even circular shape.

Post SC sts are used on the beginning round of the sides with front post sts used for the inner liner and back post sts used for the outer basket.

Finishing

Weave in all ends.

Before cutting fabric liner, measure across the bottom of the baskets and the height on the sides to verify amounts needed. The pieces need to be slightly smaller to fit, and it is better to cut slightly larger than needed, rather than having a piece that is cut too small. Fabric can be trimmed as needed after cutting.

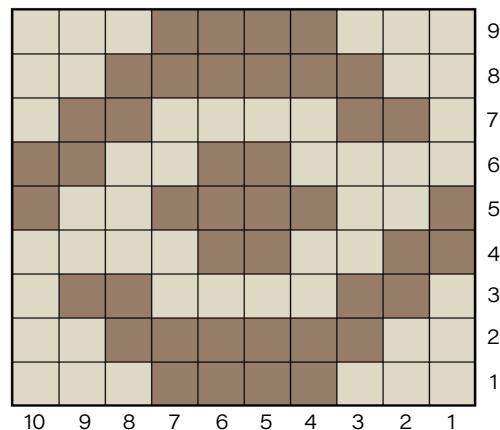

Cut 4 fabric stabilizer pieces, beginning with the bottom circles from one shorter end of fabric. Cut large circle first from corner edges of fabric and then cut small circle directly above from side edge of fabric. Cut the side strips with remaining fabric, cutting large basket strip across longest length of fabric. For the small basket cut a circle 8 inches in diameter and a strip 5 inches high x 25 inches wide. For the large basket cut a circle 10 inches in diameter and a strip that is 6 inches high x 33 inches long. Before sewing, place the cut pieces into the basket to check the size. Trim as needed.

With sewing needle and thread, lightly sew side strip to bottom edge with a long running stitch. Let side strip ends overlap slightly, then sew side ends together.

Place bottom circle inside outer basket, then place crocheted liner inside with right side visible.

With RS facing join C1 in any st of outer basket, ch 1, then working through top rounds of both inner liner and outer basket, SC in each st around to join them together, sl st in first SC to join. Fasten off and weave in ends.
