

Knotted Baby Hat

For gauge cheaters: Work through Rnd 19 of directions. When tube is folded flat, it should measure about 1" [2.5cm] across. Piece measures about 4.5" [11.5cm] long. If gauge is met, proceed with the directions and double-check circumference of hat after increases are complete

Abbreviations

- | | |
|-----------------|-----------------------|
| Ch | = chain |
| Flp | = back loop |
| ESC | = half double crochet |
| Rnd(s) | = round(s) |
| Sl st(s) | = slip stitches |
| St(s) | = stitch(es) |
| YO | = Yarn over |

Notes

Hat is worked in the round from the top, down, in continuous rounds without joins. Use a locking stitch marker to note the beginning of the round.

The rolled brim is made by working slip stitches into just the front loops. You will need to use a much larger hook and work with 2 strands of yarn held together in order to keep the rolled edging from being too tight/small.
