Mini Moon Yarn Cactus

Notes

Adorn your home, desk, or windowsill, and never worry about watering again! Make an adorable potted cactus for yourself and all your friends. It is the perfect gift for green thumbs and not-so-green thumbs alike.

Unlike standard amigurumi, this cactus is worked in double crochet to give it an extra plush and squishy feel. The pot and main cactus are worked as one piece in joined rounds and include front post stitches to provide extra shaping and texture. The flower is then stitched as a separate piece and finished with a simple french knot for an added pop of color.

Special Stitches

Working Amigurumi in Double Crochet (DC)

As with all amigurumi, stitches should be worked as tight as possible. With DC it is especially important as the height of the stitches allows more space for stuffing to show through. If your stitches are too far apart, consider using a smaller hook or heavier yarn.

Stuff more loosely than you would with standard SC amigurumi to avoid creating spaces between your stitches. Stuff just enough to maintain the shape while maintaining the soft squishy feel of the longer DC stitches.

Magic Circle

Loop your yarn with the short tail under the end coming from the skein. Holding the loop together with your finger and thumb, insert your hook into the loop and pull up a chain with the yarn coming from the skein. Ch 1 and SC into the magic circle. Once you have completed the round, pull the short tail to close the ring. Before stuffing, weave in the short tail inside the piece to secure the tightened ring.

Joining Rounds

To lessen the appearance of a "seam" when joining your rounds, slip stitch to the first stitch of the round and pull the slip stitch as tight as possible before starting the next round. Starting your round with tight chains will also help blend the look of the joined seam.

Invisible Join (inv join)

Cut your yarn, pull it out through the top of the stitch, and thread the tail into your yarn needle. Insert the needle in the indicated stitch from front to back under both the front and back loops. Pull through and insert the needle from top to bottom through the middle of the last stitch of the round (between the front and back loops and through the third loop). Adjust the yarn until it matches the surrounding stitches, and weave in as usual.

This method is great for visible edges like the top of the pot, but if you are not comfortable with the invisible join, slip stitch to the first st of the round and fasten off as usual.

Changing Colors

For this pattern, all color changes happen at the beginning of a round. Since all the rounds are joined and started with chains, it is recommended to change colors by fastening off

the previous color and joining the new color with 1 or 2 chains to reach the appropriate stitch height as instructed. If you prefer, you may choose to join the new color with a standing stitch or change to the new color by finishing the last YO of the previous stitch with the new color.

2 Double Crochet Cluster (2DCcluster)

YO, insert hook in the designated st, YO, pull up a lp, YO, draw through 2 lps, (leaving 2 lps on hook), YO, insert hook in same st, YO, pull up lp, YO, draw through 2 lps, YO, pull through all 3 lps on hook.

French Knot

Cut a length of yarn and thread your yarn needle. Insert needle from the bottom and bring it up where you desire the knot (leaving a tail at the bottom for weaving in). Holding the yarn tight, wrap it around the needle 2 times. Slide the needle as close to the flower as possible to keep the yarn taut and insert the needle close to (but not directly) where you originally brought it up. Continue to hold the yarn tight as you pull the needle and tail through the wrapped yarn and out through the bottom until the knot is formed.
